---

Gents: Can someone please advise how we can find out "what the proprietary compounds" for the dispersant are?

Any help would be appreciated.

Chris

---

<<Master\_EC9527A\_MSDS.539295.pdf>> Here is the MSDS for 9527. We need information on 9500 as well. Our state toxicologist is getting questions on potential health effects but without the proprietary info, EPA will need to the health effects.
